

FORM V
(See Rule 14)

Environmental Statement for the financial year ending on 31st March on or before 30th of September every year.

PART A

(i)	Name and address of the owner/ occupier of the industry operation or process.	MISAI HEALTHCARE SERVICES PRIVATE LIMITED, T.S.No.72/1B2, 27,28,29, etc. Naruvi Hospitals, Collector Office Road, Bangalore-Chennai National Highway (NH 48), North Vellore, Vellore Taluk, Vellore District - 632004
(ii)	Industry category Primary-(STC Code) Secondary-(STC Code).	1030-Health-care Establishment (as defined in BMW Rules) having incinerator irrespective of waste generation (or) having total waste water generation 100 KLD and above
(iii)	Production capacity- Units	387 Beds
(iv)	Year of establishment	2021
(v)	Date of the last environmental statement submitted.	20.05.2025

PART B

Water and Raw Material Consumption

1. Water consumption m³/ d

Fresh Water:

Consumption Type	Quantity (KLD)
Domestic	204.0
Pathology & Laundry purposes	21.0
HVAC Use	92.0

Recycled Water:

Consumption Type	Quantity (KLD)
Toilet Flushing	78.0
Greenbelt	7.0
HVAC	208.0

Name of products	Process water consumption per unit of product output	
	During the previous financial year	During the current financial year
	(1)	(2)
(1) -	-	-
(2) -	-	-
(3) -	-	-

(2) Raw material consumption

*Name of raw materials	Name of products	Consumption of raw material per unit	
		During the previous financial year	During the current financial year
1) -	-	-	-

PART C

Pollution discharged to environment/ unit of output.

- 1) The effluent and sewage is treated in the ETP & STP. The treated sewage is recycled within the premises for toilet flushing, gardening and HVAC purposes. The treated sewage characteristics are within the limits prescribed by the TNPCB.
- 2) DG sets are provided with stack for discharge of emissions. No process emission from the project activity. The Ambient Air Quality (AAQ) and Emission Standards are within the limits prescribed.

(Parameter as specified in the consent issued)

Pollution	Quantity of pollutants Discharged (mass/ day)	Concentration of pollutants in discharges (mass/ volume)	Percentage of variation from prescribed standards with reasons
-			
(a) Water	Refer above	Refer above	Refer above
(b) Air			

PART D

Hazardous Wastes

(as specified under Hazardous Wastes (Management and Handling) Rules, 1989)

Hazardous Wastes	Total Quantity (Kg)	
	During the previous financial year	During the current financial year
(a) From process	-	-
(b) From pollution control facilities.		
Used / Spent Oil (cat. 5.1)	0.54 T	0.63 T

PART E

Solid Wastes

	Total Quantity	
	During the previous financial year	During the current financial year
Bio degradable Solid Waste	549 kg/day	520 kg/day
Non-Biodegradable Solid Waste	365 kg/day	354 kg/day
STP Bio Sludge	30 kg/day	28 kg/day

Bio degradable solid waste is treated in Organic Waster Converter.

Non-Biodegradable solid waste is handed over to recyclers.

STP bio sludge is used as manure for gardening.

PART F

(Please specify the characterization (in terms of composition and quantum) of hazardous as well as solid wastes and indicate disposal practice adopted for both these categories of wastes.)

Used oil is disposed through authorized recyclers within 90 days of generation. We have provided covered shed with impervious flooring for storage of used oil.

PART G

(Impact of the pollution abatement measures taken on conservation of natural resources and on the cost of production.)

Biomedical waste (BMW) is disposed through common biomedical waste treatment and disposal facility. We have executed the agreement with the CBWTF. Storage & disposal details of BMW are being maintained.

PART H

(Additional measures/ investment proposal for environmental protection abatement of pollution, prevention of pollution.)

- ETP & STP is operated continuously with effective manpower.
- Adequate housekeeping staff and paramedical staff is provided for maintaining the pollution control system.

PART I

(Any other particulars for improving the quality of the environment.)

- Greenbelt is developed within the premises with trees.
- Rainwater harvesting facility is provided to augment the ground water.
